

Project Design Phase-II

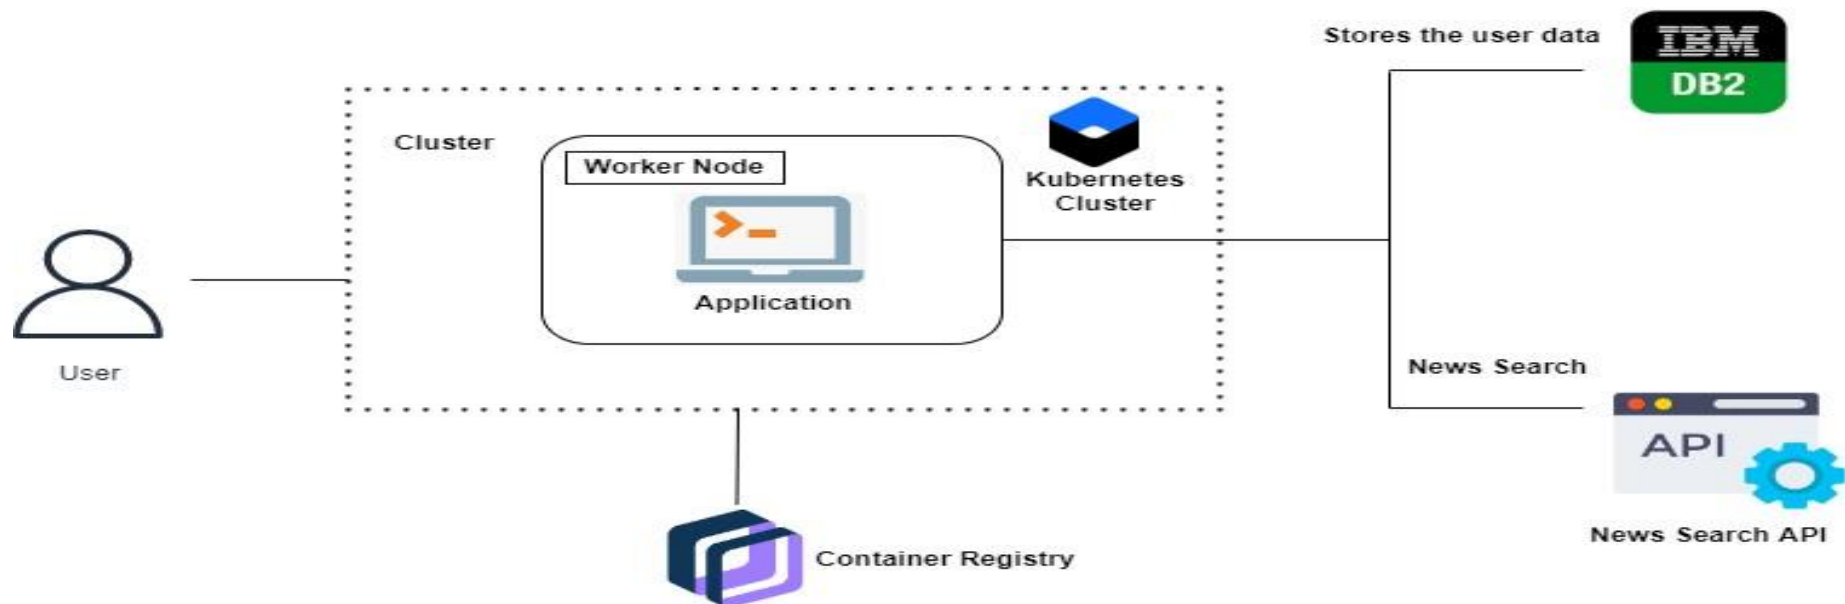

Data Flow Diagram & User Stories

Date	14October 2022
Team ID	PNT2022TMID32793
Project Name	Project – News Tracker Application
Maximum Marks	4 Marks

Data Flow Diagrams:

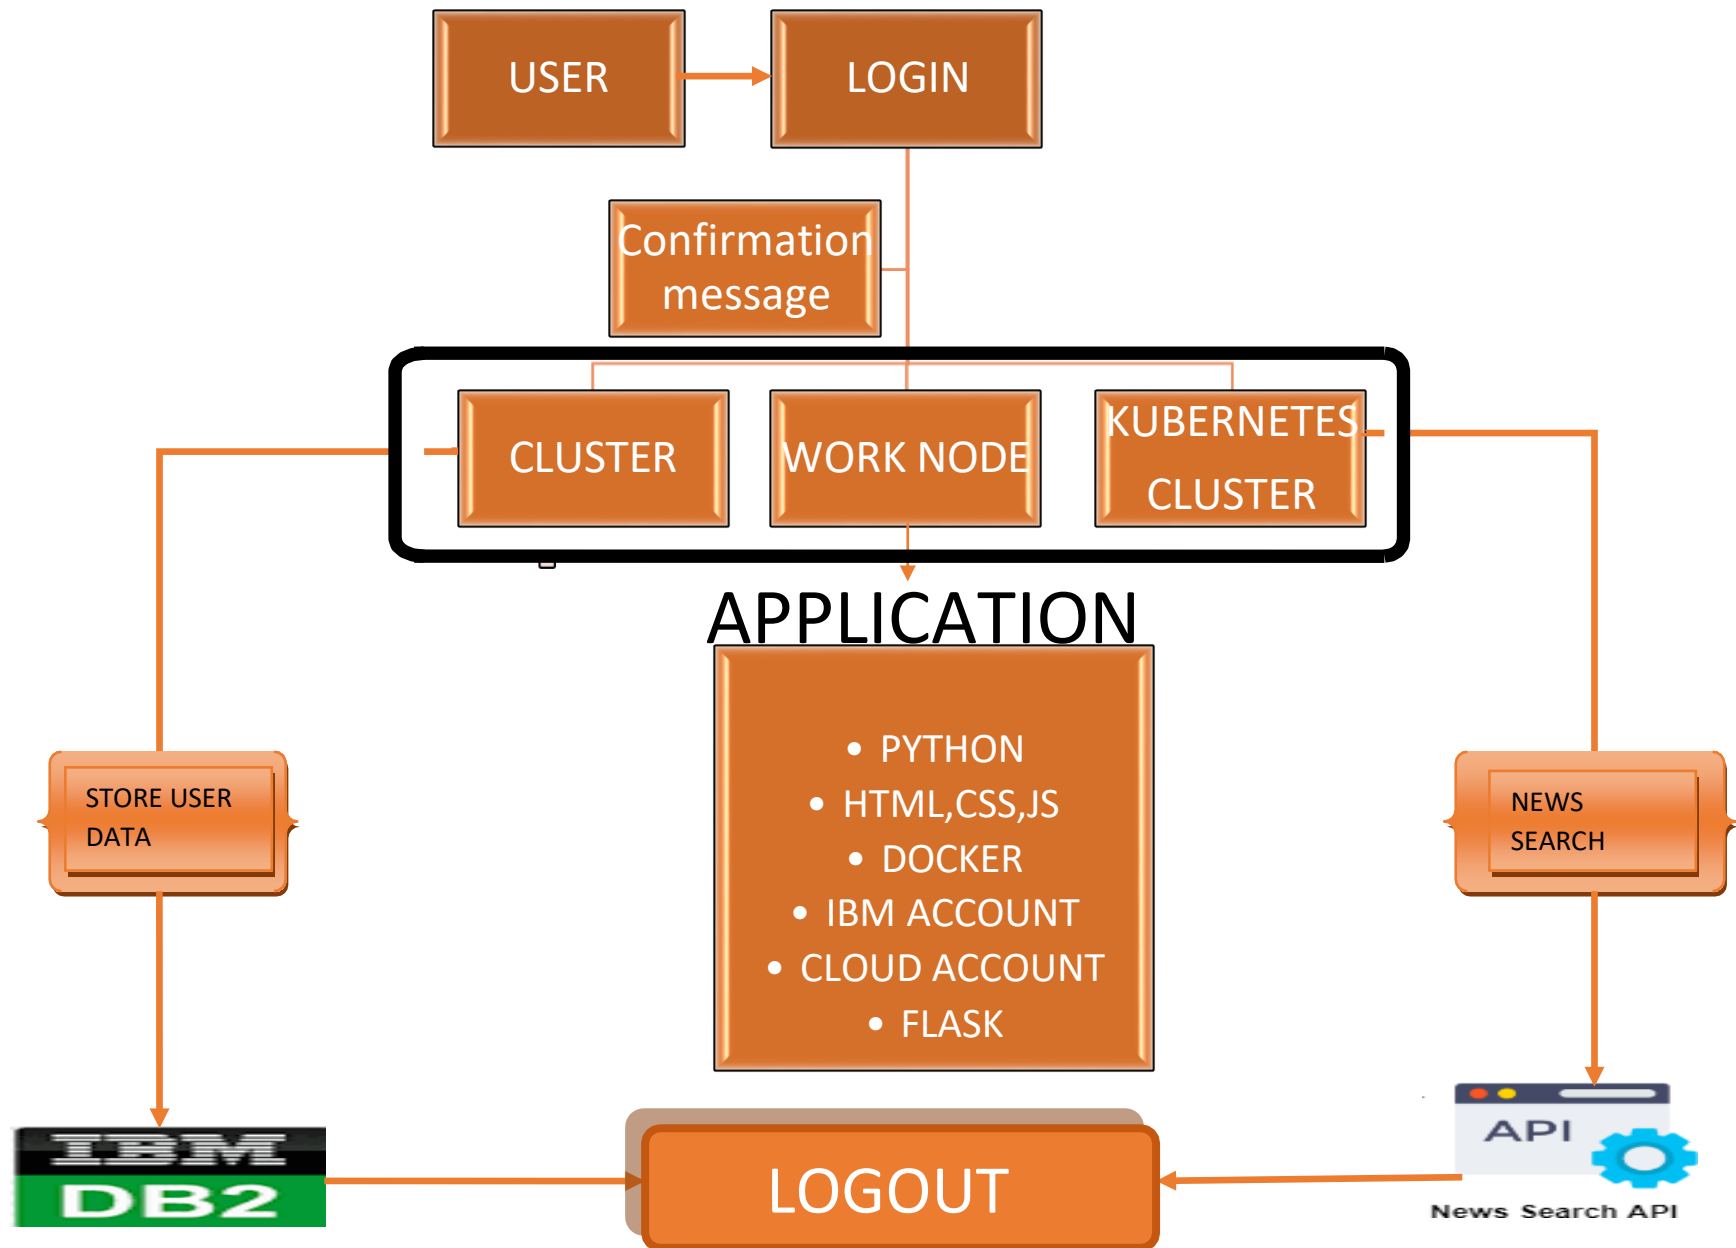

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Flow:

- The user interacts with the application.
- Registers by giving the details.
- Integrate the application with news APIs and store the data in the database.
- The database will have all the details and the user can search the news by using a search bar.
- APIs is used for searching the news faster compare to website.
